THIS IS UNEVALUATED INFORMATION

25X1

25X1

1. Under the Economic Plan, the production of lignite low-temperature coke for the third quarter of 1954 by chemical plants in East Germany was to have amounted to 1,116,500 metric tons. However, the Main Administration of Chemical Industry of the Ministry for Heavy Industry, in its plan for the third quarter, allowed for the production of only 1,085,500 metric tons of lignite low-temperature coke, thus falling short of the Economic Plan figure by 31,000 metric tons. The amounts allocated to individual chemical plants by the Main Administration for Chemical Industry were as follows:

Espenhain	601,000 metric tons
Boehlen	385,000 metric tons
Goelzau	59,500 metric tons
Rositz	40,000 metric tons
	1,085,500

2. Under the Economic Plan, the production of lignite low-temperature coke for the third quarter of 1954 by coal-producing installations was to have amounted to 499,000 metric tons. However, the Main Administration of Coal Industry of the Ministry for Heavy Industry, in its plan for the third quarter, allowed for the production of only 482,400 metric tons of lignite low-temperature coke, thus falling short of the Economic Plan figure by 16,600 metric tons. The amounts allocated to individual coal-producing installations by the Main Administration for Coal Industry were as follows:

Erich Weinert	100,600 metric tons
Deuben	113,750 metric tons
Greifbacher	97,690 metric tons
Profen	75,100 metric tons
Edderitz	73,850 metric tons
Neuhaldensleben	63,000 metric tons
[illegible]	58,400 metric tons

3. Under the Economic Plan, the production of dry coal for the third quarter of 1954 by coal-producing installations was to have amounted to 223,760 metric tons. However, the Main Administration for Coal Industry of the Ministry for Heavy Industry, in its plan for the third quarter, allowed

for the production of only 209,900 metric tons of dry coal, thus falling short of the Economic Plan figure by 83,800 metric tons. The amounts allocated to individual coal-producing installations by the Main Administration for Coal Industry were as follows:

Kulkwitz	8,850 metric tons
Doelitz	50 metric tons
Lderitz	23,000 metric tons
Hirschfelde	12,000 metric tons
Beuna	128,000 metric tons
Glueckauf	38,000 metric tons
	209,900 metric tons.
